

For when the time comes..

An introduction to the quality service
and remembrance products available
from Pet Cremation Service

Over the last 40 years, Pet Cremation Services (PCS) have built up a network of UK crematoria and cemeteries with an excellent reputation for providing pets with the very best farewell whilst at the same time giving the owner total peace of mind. We are committed to ensuring that all pets, and their owners, are treated with dignity, care and professionalism.

Northampton

Saying goodbye.....

The bond that is formed between a pet and its owner is strong and lasting. We understand the pain and sense of grief that the loss of a pet brings. It may give you comfort to know that we are here to give your beloved pet the dignified farewell they deserve. This leaflet has been developed to provide you with the information you need to make an informed decision at this sad time.

When the time comes

Once you have decided which cremation is the right choice for your pet. PCS are on hand to collect your pet from your veterinary practice. However, if you decide to attend your pet's cremation you may prefer to bring your pet personally to the crematorium where we will ensure that they receive the very best of care.

The PCS guarantee

We promise to give you a sympathetic, caring and understanding welcome. We will endeavour to meet your specific requirements - whatever they may be. Your beloved pet will be treated with the dignity and respect that you would expect - and that they deserve.

Never forget

We know what a comfort it can be to have a place to visit and remember your pet. Our Farewell Rooms and Gardens of Remembrance are available for you to visit and spend time remembering your special companion.

Farewell Room

At each of our crematoriums and cemeteries, the Farewell Rooms are available for you to say your final farewells, should you wish to attend the cremation or burial of your pet.

Books of Remembrance

There are many Books of Remembrance in our Farewell Rooms, where letters, poems and photographs, received from bereaved owners, are on display. You and your loved ones are welcome to visit and read the books, express your feelings and draw comfort from the thoughts of other bereaved petowners.

A quality and caring service

As a family run pet crematorium company the standards we set are very important to us. We are fully licensed and frequently inspected by regulatory authorities, ensuring that the standards we offer are met in full. The following section outlines the range of services we offer:

Schedule of services

You may wish to attend the cremation of your pet and utilise the Farewell Room facilities, where you will find many messages from other bereaved owners within our books of remembrance. The photographs and written words of previous attendees to the crematorium offer words of comfort and reassurance about our services.

Faith services

Whilst we do not conduct our own on-site service we do allow any faith or religion to conduct the in-row funeral service within our Farewell Room.

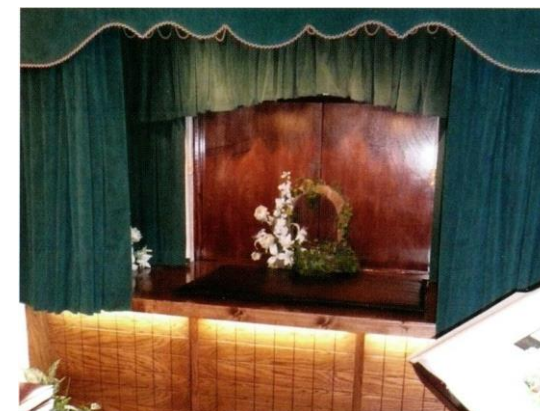

Intention of wishes

You can pre-select your intention of wishes and inform your veterinary practice, so they may keep a record of the service you have chosen for your pet for whenever the time comes. Firstly select the schedule of service you require. If the individual cremation is your preferred option, please select from our choices of Caskets. Urns 6 Tributes within this brochure. They then add this to your pet's records and inform PCS at the appropriate time in the future.

"We are extremely thankful for the services provided at a difficult time, such as when you lose a family member. The staff were compassionate, caring and tactful through the entire process.

The facilities were comforting and the services very professional. I highly recommend PCS to everyone."

Jeffrey Fletcher - January 10th 2013

Book of Remembrance and Farewell Room

Individual pet cremations

At PCS an individual cremation is carried out in individual, single chambers which mean one pet to one chamber. Following the cremation the ashes are carefully collected before the next cremation can commence ensuring the ashes you receive are those of your pet and no other.

Communal pet cremations

A communal cremation is the basic offering available to all pet owners. This does mean that the pets will be cremated with other pets. In this type of cremation no ashes will be returned as there is no form of separation but for many, this choice is a satisfactory form of closure. A small proportion of each of the communal cremations will be collected and stored in either our Columbarium Wall within a Farewell Room or in the Memorial Gardens dependent on the crematoriums licence conditions.

Caskets and urns are an attractive way to keep your beloved pets ashes. There is a large selection of designs and sizes available so you can be sure to find the one that best suits you. Caskets and Urns are returned in a presentation box with a certificate of cremation.

Deluxe Casket

The deluxe caskets are returned with a plaque, which can be engraved with the pet's name.

Code: V06

China Urn

These charming bone china urns are tastefully decorated with a delicate floral tribute.
